Tribhuvan University

Percentage: **82.24%**

Higher Secondary Education, Hetauda School of Management & Social Sciences　　2015-2017

Percentage: **81.20%**

WORK EXPERIENCE

Full-Stack Developer, [Otzivio](#)**, Bulgaria**　　　　　　　　　　Feb 24, 2021 - Jun 25,2021

- Implemented authentication module featuring integration with Facebook and Google authentication.
- Enabled seamless payment processing through Stripe integration.
- Improved customer tracking with the addition of Excel sheet imports.
- Created an automatic "Leave us a review" emailing system on new purchases from systems like shopify and woo-commerce, with hooks to tie things up.
- Designed & implemented an application-wide search functionality, enhancing data retrieval efficiency.
- Implemented a server infrastructure, incorporating automatic deployment mechanisms and scheduled cron-jobs for optimal system functionality.

Full-Stack Developer, **Flyerroom, US**　　　　　　　　　　Jul 2, 2021 - Sep 29, 2021

- Designed and implemented efficient schemas for optimized database organization.
- Developed a template editor to create customizable flier templates tailored for real estate agents.
- Created an admin dashboard for effective content management.
- Integrated secure payment processing through Stripe to ensure smooth financial transactions
- Established a server infrastructure with automated deployments and cron-jobs for operational efficiency.

Full-Stack Developer, [Global English Campus](#)**, South Korea**　　　　Apr 8, 2021 - Feb 3, 2022

- Implemented authentication module for student & teacher authentication.
- Implemented interactive quizzes that consist of different question types like match the following, fill in the blanks & mini-games.
- Implemented student attention tracking using the live feed from the webcam.
- Established a Content Management System (CMS) empowering teachers to create quizzes, assess students, and provide tailored feedback on their performances.
- Created modules to generate comprehensive reports based on students' achievements and performances.
- Deployed an adaptive learning algorithm that intelligently assigns varying questions to students based on their past performances, fostering personalized learning experiences.

Content Writer, [Learndev](#)**, Germany**　　　　　　　　Dec 7, 2021 - May 10, 2022

- Researched and authored instructional content and quizzes tailored for beginner-level courses on HTML, CSS, and JavaScript.

Mobile Developer, **Playsmart Monopoly, Nepal**   Jan 29, 2022 - Mar 11, 2022

- Developed a Monopoly-like game in React Native, incorporating essential game logic and a user-friendly UI/UX design.
- Implemented a pass-device multiplayer game mode for an enhanced gaming experience.

Full-Stack Developer, **Beercrawl, Australia**   Mar 14, 2022 - June 22, 2022

- Rewrote the frontend application using Vue, resulting in improved speed and responsiveness.
- Schema design and implementation.
- Developed a Content Management System (CMS) for efficient stock management and report viewing.
- Refactored the roles and permission module to enhance intuitiveness and ease of maintenance.

Front-End Developer, **Timewise, USA**   Sept 30, 2022 - Jun 15, 2023

- Revamped the UI for both the landing page and customer calendar, introducing a modern and intuitive design.
- Implemented an in-app live chat feature facilitating communication between customers and service providers, offering various modes such as email, call, and messages.
- Conducted bug fixes and performance optimizations on both the customer-facing app and the business application for a smoother user experience.

Full-Stack Developer, **Digital8, Australia**   June 27, 2023 - Current

- Played a key role in eliciting and analyzing client requirements, contributing to the strategic planning of diverse projects.
- Led the design and implementation phases of database structures, ensuring optimal data organization.
- Integrated payment functionality seamlessly using the Braintree API.
- Implemented a robust order and delivery tracking system through Netsuite.
- Revamped and refactored multiple modules for enhanced speed and overall system optimization.

SKILLS

Languages: Fluent in Nepali, English & Hindi

VOLUNTARY INVOLVEMENT

Programming Tutor at **Hetauda City College, Hetauda**   Jun 14, 2022 – July 16, 2022

EVENT PARTICIPATION

Participated in **BIC Hackathon 2.0** organized by **Boston**   Dec 26 - 29, 2022
International college under the **theme "Race to Innovation"**
